All 100 cards in this book are different, and every square on every card is on the caller's list.

First edition, 2026

How to Play

This set has 100 different cards and 75 numbers to call. No two cards are the same, and every number on every card is on the caller's list.

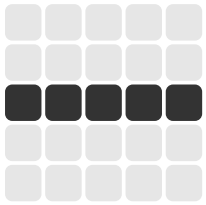
Get ready

- ✓ Cut the cards out along the dashed lines, or tear out the pages. To keep the book whole, photocopy the cards you need: the pages are made to copy cleanly.
- ✓ The caller uses one calling board (in the "For the Caller" section) per game.
- ✓ Give each player a card and some markers: bingo chips, coins, buttons, dried beans or small candies.

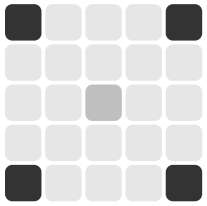
Play

- ✓ Draw a call card or pick a number from the calling board, and read it out with its letter: "B 7".
- ✓ Circle each number on the calling board as you call it, so you can check a winner in seconds.
- ✓ The first player to cover the pattern shouts "BINGO!" Check their card against your calling board. Every card has a number, so you can call it out and check it fast.

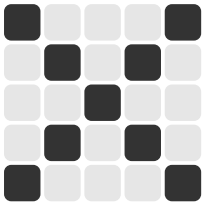
Ways to win



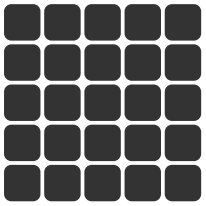
One line
Five in a row across, down or corner to corner. The free middle counts.



Four corners
Cover the four corner squares.



Letter X
Cover both diagonals to make a big X.



Blackout
Cover every square on the card.

How long a game lasts

We played this exact set 5,000 times by computer with all 100 cards in play. The first winner usually has one line after about 16 calls, four corners after about 25 calls, letter X after about 42 calls, blackout after about 64 calls. With fewer players, games run a little longer.
